## AJEGUNLE COMMUNITY PROJECT - RECOMMENDATION AND SUGGESTIONS

Ajegunle Community Project has actually created awareness to members of Ajegunle Community, and some schools in Lagos State. This project has gone along way to identify some of the problems facing Community Members in Ajegunle and our Youths in Schools. Such problems as domestic, academics, peer pressure, social problems etc and have provided avenues to solving such problems.

They organised moral talks, seminars, round table discussions, involving students, school heads, Counsellors and some Educationists from the District within year 2007.

They intensified efforts towards the inauguration of A.C.P. anti-violence club in schools which is still in existence and the students are actually benefitting from this programme. During this club meetings on Wednesdays, vital issues such as Cultism, Rape, Fruancy, H.I.V., Drug Abuse, Sex Abuse were discussed, and possible solutions were suggested by the students. This project has enabled the students to actually know the meaning and types of gender based violence and discrimination in schools, and how to tackle this problems.

I want to commend the Executive Director Alhaja Raliat Damiju, the projector coordinator Mrs. Mubo Akosile and others, they are actually doing a fine job. Finally, I want to suggest that this project as its names implies should be extended to other Zones in Lagos State and to primary schools in the State. The mass media should be involved to cover some programmes from time to time.

Do not relent in year efforts.

Thanks.

.....  
  
THE PRINCIPAL  
C. A. AKINKUGBE (MR)
