Dear Madam,

LETTER OF COMMENDATION

On behalf of my entire school, I write to commend your efforts in the area of girls child gender discriminations, sexual harassment and all kinds of violence against youths in the school .

There have been some pockets of cases like teenage pregnancies almost resulting into self induced abortion which was later discovered by the school authority through the public awareness ACP organized

The ACP anti- violence club in our school which has grown from step to higher stage has helped the situations.

We therefore, solicit for additional help than ever in all area available to your office

Thank you for all your efforts in making the students and the general public to be aware of their rights and be free from all kinds of violence.
